Those wishing to receive a seasonal flu vaccine can do so at Fremont Community Clinics. Fremont has supplies at all three of its locations in north and northeast Minneapolis. The shots are available for everyone and walk-ins are welcomed.

The vaccination will cost \$22; some commercial insurance companies will cover all or part of the fee as will State Public programs such as Medical Assistance and MnCare.

We do not have the Novel H1N1 Flu Vaccine available at this time, but we expect to receive it by mid-October. For all the latest information on the seasonal and H1N1 flu and the availability of vaccines, call 612-588-9411 or go to www.fremonthhealth.org.
